

CURRICULUM VITAE

Marie-Lou Mueller

AI Solutions & Automation

Automation and AI solutions specialist. I take operational processes that are expensive because they are judgement-heavy, work out which parts of the judgement a system can safely own, and ship the system together with the evidence that it is working.

EXPERIENCE

2024 – Present
Berlin

AI Solutions Lead

[Company Name](#)

- Scoped and delivered three agent-based automations across claims, procurement and support, each with an explicit abstain path and human review stage.
- Introduced a shared evaluation harness that made regression a blocking condition for deployment; adopted by four teams.
- Ran the intake process that decided which processes were worth automating — and wrote up the ones that were not.

2022 – 2024
Remote

Automation Consultant

[Company Name](#)

- Delivered document-extraction pipelines over 34,000 legacy supplier contracts with field-level provenance.
- Worked directly with operations teams to turn tacit routing rules into testable specifications.

2020 – 2022

Business Analyst

[Company Name](#)

- Process mapping and requirements work across finance operations.
- Built the reporting layer that later became the baseline for measuring automation impact.

EDUCATION

2018 – 2020

M.Sc. — Field of Study

[University Name](#)

- Thesis topic or a one-line highlight.

2015 – 2018

B.A. — Field of Study

[University Name](#)
